ABOUT US

From a small workshop to a 100+ strong manufacturing team

Vybic Impex was founded in **2017 in Sialkot, Pakistan** — with a small team, a handful of machines, and one clear goal: to manufacture sportswear that international brands can genuinely trust.

In those early days we worked with limited manpower but unlimited commitment. Every stitch was checked, every shipment was personal, and every client relationship was built on a simple promise — **quality first, always.**

That promise carried us forward. Year by year, our capacity grew: new production lines, in-house sublimation printing, embroidery and stitching units, and a dedicated quality-control and export desk.

Today, Vybic Impex is powered by a **team of 100+ skilled professionals** — pattern makers, sublimation specialists, stitching operators, QC inspectors and export coordinators — all working together under one roof in Sialkot, the world's sportswear manufacturing capital.
